PostgreSQL · Redis

Frontend & Platform
React · Next.js · TypeScript/JavaScript · Tailwind CSS · shadcn/ui · PWA · Docker · Git/GitHub · CI/CD · AWS · Vercel · Cloudflare (Workers/D1) · OpenTelemetry

Languages: Spanish (native) · Basque (native) · English (professional)

PROFILE

Backend & Full-Stack Engineer focused on Python/Django, React/Next.js, TypeScript, PostgreSQL and Docker. Builds and maintains production web applications, REST APIs and internal systems with hands-on data modelling, CI/CD, observability and practical AI automation. Spanish EU citizen relocating to Zurich. Portfolio: mikeldev.com.

PROFESSIONAL EXPERIENCE

Software Developer
Biodatup
October 2025 – October 2026
• Built and maintained Django/DRF APIs and React/Next.js workflows for a clinical-trials platform backed by 800+ automated tests.
• Built agentic AI workflows that turn trial protocol PDFs into reviewable drafts: OCR, LLM extraction with page citations, decision-model (Jev) evaluation, deterministic checks and human review. Compared decision models for gating AI output.
• Led AI study matching end to end: designed the solution, selected the provider and models, and directed development.
• Worked with PostgreSQL, Docker, CI/CD and OpenTelemetry observability in production.

Full Stack Developer
Codetec Servicios Informáticos SL
January 2025 – September 2025
• Built applications across 4 business areas: management, accounting, invoicing and logistics.
• Worked full stack with Vue/Nuxt, Angular/Ionic, Node.js, Laravel/PHP and SQL/NoSQL.

EARLIER EXPERIENCE

Backend Developer · IT Support · Camp Staff
Tesicnor SL · Burlada City Council · Camp Longhorn
2022–2024
• Tesicnor — Backend Developer, Aug–Oct 2024; Spring Boot, Angular/JSF, Maven and MySQL. IT internship Jan–May 2024.
• Burlada City Council — IT support and municipal systems, Mar–Jun 2022.
• Camp Longhorn, Texas — English-speaking role, May–Aug 2024; lifeguard certified.
