Experience

Oct 2025 – Oct 2026
Software Developer — Biodatup

- Developed a clinical-trials platform with Django and React.
- Designed relational data models and SQL workflows for clinical and product teams.
- Built agentic AI workflows that turn trial protocol PDFs into reviewable drafts: OCR, LLM extraction with page citations, decision-model (Jev) evaluation, deterministic checks and human review.
- Led AI study matching from design to delivery: designed the solution, selected the provider and models and directed its development.

Jan 2025 – Sep 2025
Full-Stack Developer — Codetec Servicios Informáticos SL

- • Built management, accounting, invoicing and logistics systems.
- • Shipped production Nuxt 3/Vue 3 + TypeScript apps: enterprise time tracking, real-time truck fleet management and e-commerce with payment gateway.
- • Frontend: Vue.js, Nuxt and Ionic. Backend: Node.js and Laravel.
- • Worked with SQL and NoSQL databases.

Summer 2024
Camp Counselor — Camp Longhorn Inks Lake, Burnet, Texas, USA

- Worked in an English-speaking environment in Texas.
- Led and supervised groups of children and earned lifeguard certification.

Jan 2024 – May 2024
Full-Stack Developer — Tesicnor SL, Noain, Navarra | Internship

- • Built REST APIs and web features with Spring Boot and Angular.
- • Worked with JSF, MySQL, Git, Maven and Docker.
- • Optimised relational queries and supported containerised deployments.

Mar 2022 – Jun 2022
IT Intern — Burlada Town Hall

- Supported municipal IT systems and resolved technical issues.
- Collaborated with public-sector staff in day-to-day IT operations.

Technical Skills

- **Backend: Python, Django, Celery (workers), Node.js, Spring Boot, Laravel (PHP), REST APIs, GraphQL**
- **Frontend: React, TypeScript/JavaScript, Vue.js, Nuxt, Angular, Ionic, Tailwind CSS, shadcn/ui, PWA**
- **Data: PostgreSQL, Redis, MySQL, SQL Server, MongoDB, relational modelling, SQL**
- **DevOps: Git/GitHub, Docker, Maven, Bitbucket, Bash, AWS, Vercel, Cloudflare (Workers/D1)**
- **AI & automation: WebLLM/WebGPU projects, LLM tooling, workflow automation**
